Acknowledgements

- ❖ To the Almighty, who helped me accomplish this AIIP project.
- ❖ To my parents and grandparents for encouraging, motivating and standing by me always.
- ❖ To my mentors (Ms. Shivani, Ms. Smita, Ms. Shiksha, Mr. Avishek, Mr. Prateek) for enriching me with their endless knowledge.
- ❖ A special mention to Mr. Ken for being a guiding light.
- ❖ Thank you to Mr. Javed Rizvi for being a fantastic teacher.
- ❖ To everyone who made this possible, thank you from the bottom of my heart.

About My Internship Journey with Clevered..

My Rockstar Badge for Timely Submission

My Spotlight Award

My Rockstar Badge for Wonderful Efforts for Project Completion

My Rockstar Badge for Attentiveness

The mentorship sessions are very informative and educates me to move forward with my project development.

I was able to explore the World of AI with hands-on-learning experience every week.

The opportunity to intern under Mr. Ken is one of the best opportunities I have got so far. I expect to learn a lot and explore the world of AI in a better perspective under his valuable guidance.

Shivani Ma'am has been a guiding light and a friendly and patient mentor. Through her words of encouragement and suggestions, she motivates me to discover and learn more and more new things.

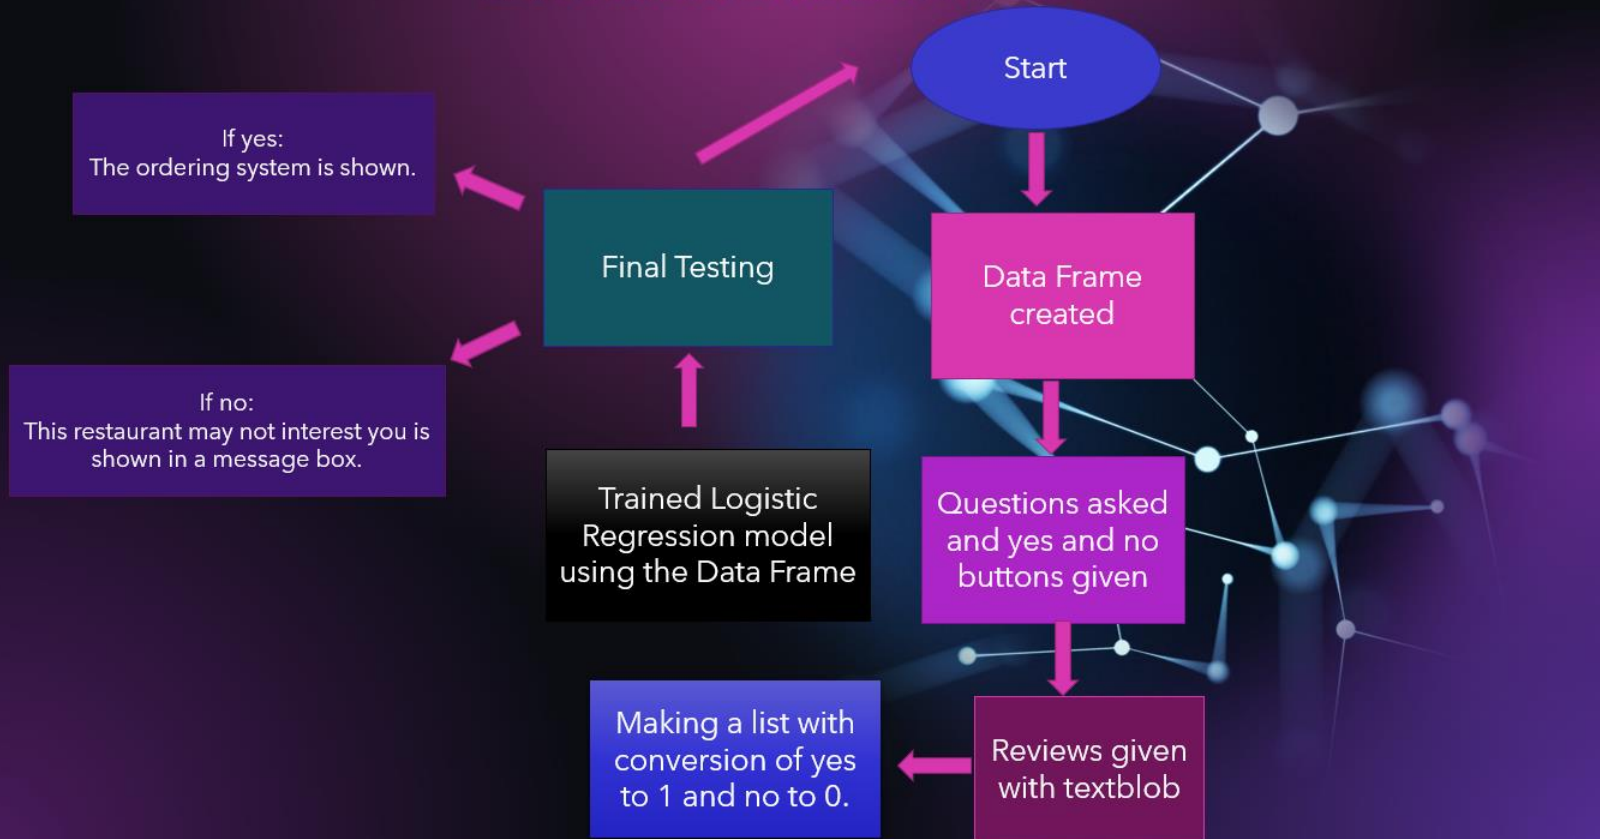

About Nutrihome..

- My aim is to create an automated restaurant, Nutrihome. It is a restaurant that serves the most healthy and delicious food.
- The people are always welcomed with a wide variety of choices and are offered a delectable meal.
- It includes server bots, online ordering systems, survey bots, a feedback chatbot and a speech emotion detection app.

How do I use the App?

SENTIMENT ANALYSIS APP

- ✓ Once the questions are asked, the user needs to input his/her answers.
- ✓ The Sentiment Analysis App will let the user know whether the user is interested in the restaurant or not.
- ✓ On the basis of the interaction, the computer will decide.

How do I use the App?

TKINTER ONLINE ORDERING SYSTEM

This will appear as a label.

All of these will appear as buttons. When these buttons are clicked, the quantity will be asked.

How do I use the App?

MODE OF FEEDBACK

Here, the user can choose his/her mode of feedback.

How do I use the App?

CONVERSATIONAL TALKING CHATBOT

```
q1=input("Did you like the  
food in the restaurant? ")  
q2=input("Was Nutrihome  
user-friendly?")  
q3=input("Will you  
recommend Nutrihome to  
people?")  
q4=input("Will you visit  
this restaurant again? ")
```

Questions as
input

```
q5=input("Any other feedback for improvement? ")
```

Additional
Feedback asked

```
print("Thank you for your valuable  
feedback.")
```

Thank you

In case the user wishes to give his/her feedback by typing, he/she can use this chatbot and give answers to questions.

How do I use the App?

SPEECH EMOTION DETECTION APP

```
q1=input("Hi. ")
q2=input("Did you like the
food in the restaurant? ")
q3=input("How were the
automated services, were
they user-friendly? ")
q4=input("Will you
recommend this restaurant
to your friends and
relatives? ")
q5=input("Will you visit
this restaurant again? ")
```

```
print("Your valuable feedback is highly
appreciated. Thank you.")
```

Computer asks to
share feedback.

User says
something

Computer detects
emotion and says
thank you

```
q6=input("In case you have written 'no' to any of
these questions, could you please mention the
reason? Any other feedback for improvement? ")
```

In case the user wishes to give his/her feedback by speaking, he/she can use speech emotion detection app where the computer will take in the emotions based on the given answers to questions.

Sentiment Analysis App

Sentiment Analysis App

Hello! Welcome to Nutrihome Sentiment Analysis App! I am your assistant, Sajini. Let's find out whether Nutrihome Restaurant interests you.

Do you enjoy healthy food?

Are you looking for a delectable meal, yet gluten-free and less calories?

Are you looking to indulge in guilt-free food in an automated environment (server bots and click-to-order)?

If 90% of customers have rated the restaurant as outstanding, are you tempted to visit us?

Please click on the cross button in the reviews window to continue taking the survey.

Reviews

Tweets	Scores	Labels
Happiness Quotient	0.7	positive
Lovely food	0.5	positive
Amazing Automation	0.6000000000000001	positive
Superb Service	1.0	positive
Adorable Ambience	0.5	positive
Awesome Overall	0.5	positive

The user has to click on yes/no for the questionnaire in order to proceed to the ordering system and can also click on the reviews button to see some reviews about the restaurant.

Thank
you!

The image features the words "Thank you!" written in a highly decorative, hand-drawn style. The letters are thick and outlined in black, with various colors and patterns applied to them. The word "Thank" is in the top row, and "you!" is in the bottom row. The letters are surrounded by several colorful flowers and decorative elements. The background is white, and the entire illustration is set against a blue gradient background with light effects.
